RESIN BOND GRAVEL PAVING

THE RESIN BOUND applies the science of combining small stones i.e gravels with use of high-tech resins in order to from a fixed surface that is attractive. Because small stones are being used in laying resin bound gravel, small gaps are created that allow water to drain into the ground, Thereby making the surfaces SUDS (sustainable urban drainage system) compliant . As a matter of fact, This is highly advantageous because of its and low cost maintenance. Available in unlimited possible combinations of stones.

ADVANTAGES

Slip resistant, even when wet

- UV resistant for external areas
- A High Durability
- \infty Unlimited Matrix Colours

MICRO CEMENT FINISH

THE MICRO CEMENT System is a 3 mm coating that allows providing a natural concrete-looking finish to almost any possible substrate and item. It is a thin coating for renovating and resurfacing of almost any type of flooring, walls. It provides either marble10 or cloud look and has variety of natural colors. Microtopping became a huge trend in UAE interior design although it is a common. and very popular thing in the Europe since early 2000's. Microtopping is rather an art than just stucco and you will never found two equal Microtopping projects. The pattern can be light or cloudy with waves and shades or rough and Marble -looking with veins, trowel marks and crack-looking lines.

ADVANTAGES

Chemical and heat resistance **Tensile-compressive Strengths**

TERRAZZO FLOORING

AHTE FLOORING introduces Terrazzo Flooring which is a composite material, poured in place or precast, which is used for floor and wall treatments. It consists of chips of marble, quartz, granite or other suitable material poured with a cementitious binder, polymeric or a combination of both.

Terrazzo Flooring in Dubai is a polymer flooring system made with a thick epoxy resin mixed with various aggregates. It uses either a cement or epoxy matrix as the binder. Metal strips divide sections, make transitions, design decorative patterns or logos and allow for movement or crack mitigation.

ADVANTAGES

- G **Tensile-compressive Strengths**
- ∞ **Unlimited Matrix Colours**
- Lowest Maintenance Cost Due To Non -E Absorbency
- \bigcirc **Stain Resistant**
- \mathcal{Z} **High Durability**
- \bigcirc **Less Installation Time**
 - **Light Weight**
- 4 **Quickest Pour To Grind**

Epoxy Flooring Colour Chart

EPOXY FLOORING

EPOXY FLOORING an industrial floor is any floor that is designed to comply with the requirement

of each type of industry. Movement of load, chemical products, aesthetics, durability, etc.. Each type of activity requires a pavement with different finishes.

The final material is strong, durable, resistant and bonds extremely well to most base layers. Epoxy floors are so strong that they're often used in heavy traffic areas such as industrial environments, hospitals, or sports facilities.

PU Concrete Flooring Colour Chart

Frozen Room

Bait Maryam Levant Kitchen- Business Bay

PU CONCRETE FLOORING

PU CONCRETE is an eco friendly, urethane cement system providing high wear and high impact floor protection to concrete floors. PU concrete offers extreme resistance against physical or chemical abuses, thermal shocks and impact loads and is ideal for cold rooms, food, beverage, meat processing, diary and flight kitchens. Available in limited colors.

PU concrete is seamless, hygienic, odorless & does not support bacterial growth. Like stainless steel substrates, all PU concrete floors can be effectively sanitized by steam cleaning to a standard comparable to stainless steel.

SELF LEVELING & RE-SURFACING FLOORING

SELF -LEVELING FLOORING is typically used to create a flat and smooth surface with a compressive strength similar to or higher than that of traditional concrete prior to installing interior floor coverings. Resurfacing your floor involves more than just putting a layer of polish on top. It may require removing old floorboards, grinding down uneven boards and reinforcing wood planks with new nails.

ADVANTAGES

- 🌋 Slip resistant, even when wet
- High scratch and impact resistance
- $\overset{\circ}{\amalg}^{\diamond}$ Chemical and heat resistance
- Increases Safety
- 🛪 Wards off Pests
- High gloss, appealing finish
- Attractive, bright color options
- Improve Your Property Values
- Save money

SPORTS FLOORING
